DESCRIPTION

A dedicated women's style built on anatomically correct, gender-specific lasts, offering a proper fit and proportional safety.

Akron blends the features of a performance work trainer with the added support of a hiker-inspired design. Its dual-density, low-profile outsole is slip-resistant and features a Bobcat® traction-inspired tread pattern. A non-marking sole makes it suitable for use on protected surfaces. The breathable industrial nylon upper is paired with synthetic Nubuck leather and reinforced with a heat-bonded toe guard stitched at the foot's natural flex point for enhanced durability.

Inside, utilising the patented Redbacks cushioning system, every pair of Bobcat® Safety Footwear is engineered with energy-returning Leaf-Spring Technology insoles. Absorbing shock, reducing fatigue, and supporting the feet, knees, and back.

KEY FEATURES

Upper Material	Breathable, industrial woven nylon
Upper Characteristic	Water resistant
Lining	Soft-touch Lycra blend
Features	Anatomically correct, gender specific last
	TPU bonded features on quarter
	Protective TPU toe cap and heel counter
